Sustainability.

The Company, which runs in parallel with T. Garanti Bankası A.Ş., which is a pioneer in this field with its policies and procedures in the

field of sustainability, has started its Environmental, Social, and Corporate Governance efforts within the scope of the "Communiqué Amending the Corporate Governance Communiqué (II-17.1) (II-17.1.a)", published in the Official Gazette dated 02.10.2020.

Garanti BBVA Factoring recognizes the importance of conducting its activities responsibly and aims to determine the principles that will guide all its efforts in this regard in order to strengthen its mission to continuously and significantly increase the value it adds to its customers, shareholders, employees, society and the environment with its effectiveness, agility, and organizational efficiency, with the aim of presenting the opportunities of the era to everyone in Turkey,

These principles support Garanti BBVA Factoring to effectively identify and address the key sustainability risks and opportunities it faces in Turkey.

Based on its indispensable values, Garanti BBVA Factoring defines sustainability as a commitment to creating a strong and successful business model for the future by sharing long-term values with its customers, employees, shareholders, and all groups in the places where it operates, as well as minimizing the negative effects on the environment and society.

■ In the Board of Directors section, Garanti BBVA Factoring A.Ş.'s rating was revised as **93.13**.

The reason for the rating increase regarding this section is that the Company's "Board of Directors Diversity Policy" has been accepted and put into effect with the Board of Directors decision dated 27.03.2023 and numbered 15.

In the meetings with the company officials and the examinations made on the Board of Directors' Decision Book, it has been determined that the Board continues its activities actively, effectively, and regularly. It has been observed that the Board of Directors internalizes the corporate governance principles, adopts an open approach to improvement and development, and displays a proactive attitude in compliance with the principles.

The Board of Directors has described the corporate strategic objectives and determined necessary human and financial resources. The duties of the chairman of the Board of directors and general manager are carried out by different persons, and the authorities of each are defined. The Board of Directors, which consists of a chairman and 8

(eight) members, consists of 3 (three) executive and 6 (six) non-executive members. 2 (two) of the non-executive members have the status of independent members.

Only 1 (one) female member has been appointed to the Board of Directors. This structure does not comply with the "not less than 25%" criterion determined by the CMB as the rate of female members on the Board of directors.

That the following statement is included in the content of the "Board of Directors Diversity Policy", which was accepted by the Company's Board of Directors and entered into force, "In particular, maximum effort will be made to ensure a balanced representation of women and men in the Board of Directors. For this purpose, a target has been set for the representation of the under-represented gender, which is to try to ensure that at least 25% of the Board of Directors is represented by female executives by the end of fiscal year 2025 and beyond.", the Company's determination of a target rate and target time, not less than 25%, for the rate of female members in the Board of directors, which is included in the corporate governance principles, and the creation of a policy to achieve these targets are considered as an indication of compliance with the principle.

In the event that the Board of Directors evaluates the progress achieved in reaching these targets on an annual basis, the Company's compliance with the principles will be further strengthened.

The Audit, Corporate Governance, and the Early Detection of Risk Committees, which are stated in the principles, have been established. Separate Nomination and Remuneration Committees haven't been established because of the Board's structure. These duties are carried out by Corporate Governance Committee as well. The duties, working principles and the members of the committees have been determined by the Board of Directors, approved as written documents, announced to the public and

published on the corporate website of the Company. All members of all three committees are independent board members. In addition, only the Investor Relations Officer and a non-executive Board Member serve as committee members in accordance with Communiqué No. II.17.1 in the Corporate Governance Committee. The Company's general manager has not been appointed within the committee structures.

The Board of Directors convened 23 (twenty-three) times in 2022. A total of 43 (forty-three) decisions were made. As of the end of July 2023, the Board convened 21 (twenty-one) times and made 36 (thirty-six) decisions.

The Audit Committee held 8 (eight) meetings in 2022. Four of these meetings were held with the participation of the independent auditor. As of the end of June 2023, it held 3 (three) meetings.

The Corporate Governance Committee convened 5 (five) times in 2022 and 3 (three) times as of the end of June 2023.

The Early Detection of Risk Committee held 6 (six) meetings in 2022 and 3 (three) meetings as of the end of June 2023.

In the examinations made on the documents, it was observed that the meeting records of both the Board and the Committees were kept regularly.

Remuneration Principles for the Members of the Board of Directors and Senior Executives have been determined and disclosed to the public on the Company's corporate website.

With the decision of the Company's Board of Directors dated 27.03.2023 and numbered 15, the "Board of Directors Procedures and Working Principles" has been accepted in its final form. Section 4 of these principles includes "Self-Assessment Principles of the Board of Directors". Self-assessments to be carried out by the Board of Directors in accordance with these principles will be followed up to be evaluated in the upcoming rating studies.

Fees and benefits given to the Board of directors and directors with administrative responsibilities are not disclosed on an individual basis.

The damages that may be caused to the Company by the faults of the members of the Board of Directors during their duties were insured, but no PDP statement was made on the subject.

In accordance with the financial statements for the accounting period 1 January 2022-31 December 2022, prepared in accordance with the Turkish Accounting Standards/Turkish Financial Reporting Standards (TAS/IFRS) and the mandatory formats determined by the CMB, and audited by Güney Bağımsız Denetim ve Serbest Muhasebeci Mali Müşavirlik Anonim Şirketi, within the scope of the "Communiqué on the Principles of Financial Reporting in the Capital Markets" of the Capital Markets Board of our Company, Serial II.14.1, and in accordance with the decision of the Banking Regulation and Supervision Agency on profit distribution dated 21.02.2023,

Taking into account "When it is taken into consideration the ongoing economic instability and recession expectations around the world regarding profit in the year 2022, it is necessary to maintain the prudent policy towards keeping the equity structures of companies strong, In this context, it would be beneficial for the shareholders not to distribute the profits obtained in the year 2022 and the profits and reserves obtained before the year 2022, but not subject to distribution and kept under shareholders' equity, in a way that would cause cash outflow, and on the other hand, it should be noted that possible profit distribution requests can be evaluated by taking into account the precautionary principle and the particular circumstances of the companies, especially the standard rate;

2. RATING METHODOLOGY

The Corporate Governance Compliance Rating is a system that audits whether or not the firm's management structures and management styles, the arrangements for shareholders and stakeholders, and the process of informing in transparency and accuracy are performed in accordance with modern corporate governance principles and which assigns a grade corresponding to the existing situation.

Organization for Economic Co-operation and Development (OECD) established a working group in 1998 to assess member countries' opinions on corporate governance and prepare some non-binding principles.

The fact that principles are open to change in time was also accepted in this work. Although these principles were initially focused on the companies whose shares were quoted in the stock exchange, OECD emphasized that it would also be helpful to implement these principles in public enterprises and companies whose shares were not quoted in the stock exchange.

In 1999, OECD Corporate Governance Principles were approved at the OECD Meeting of Ministers and published. Since then, these principles have been regarded as international references for the decision – makers, investors, shareholders, companies, and stakeholders worldwide.

Since their approval, these principles kept the concept of corporate governance on the agenda and became guidelines for the laws and regulations in OECD members, as well as other countries.

In OECD Corporate Governance Principles, corporate governance is based on four basic principles, which are fairness, transparency, accountability, and responsibility.

Turkey has been closely monitoring these developments. A working group, established

within TUSIAD in 2001, prepared the guide titled "Corporate Governance: The best implementation code". Then CMB issued "Capital Market Board Corporate Governance Principles" in 2003 and updated it in 2005, 2010, 2012, 2013 and 2014 according to international developments in this field.

Obligation to comply with CMB's Corporate Governance Principles, based on the principle of "comply or explain", and to declare it became part of companies' lives in 2004. Putting the Declaration of Compliance to Corporate Governance in the annual reports became obligatory the following year.

The principles are grouped under four main headings, namely: the Shareholders, Public Disclosure and Transparency, Stakeholders, and the Board of Directors.

The Corporate Governance Compliance Rating Methodology has been prepared by Kobirate A.Ş. for companies whose shares are traded on BIST, banks, investment partnerships and non-quoted companies.

It has been prepared by taking into account the criteria specified in the Corporate Governance Communiqué of the CMB, numbered II-17.1, published in the Official Gazette dated 03 January 2014 and numbered 28871, as well as the decisions taken at the CMB's board meeting dated 01.02.2013 and numbered 4/105.

In this analysis, the full compliance of workflow and analysis technique with KOBİRATE A.Ş.'s Ethical Rules is considered.

446 criteria are used in the rating process for BIST 3rd Group Companies in order to measure the compliance of firms with corporate governance principles. These criteria are transformed into "Corporate Governance Rating Question Sets" through Kobirate A.Ş.'s software.

The weighting scheme for the four main sections in the new Corporate Governance Compliance Rating, determined by CMB's memorandum dated 12.04.2013 and numbered 36231672-410.99 (KBRT)-267/3854, is applied completely by Kobirate A.Ş. The weightings are as below:

Shareholders 25 %

Public Disclosure and Transparency 25 %

Stakeholders 15 %

Board of Directors 35 %

CMB decision dated 01.02.2013 and numbered 4/105 states that in case the minimum requirements of corporate governance principles are met, 85 % of full points can be given at most for that principle and it is required to add new questions / methods into the methodology in order to ensure that good corporate governance principles, which go beyond meeting the minimum requirements are included in the rating grade. Our Company has been informed about this requirement by CMB notification dated 19.07.2013 and numbered 36231672-410.99 (KBRT) 452.

In the 2014/2 revised corporate governance compliance rating methodology created by our Company, the grade that can be given to a related criterion in that subsection for meeting minimum requirements of corporate governance principles, stated by CMB Communiqué of Corporate Governance published on 03.01.2014 is restricted to 85 % of the full points. A rating is made with a system that completes the section grades up to 100 by the Company's compliance and implementation of the corporate governance practices, which include the good implementation and internalization of the criteria determined in the corporate governance principles, and the different good corporate governance practice criteria determined by our Company.

The grade to be assigned by the Corporate Governance Rating Committee to the firm ranges between 0-10. In this grade scale, "10"

points mean excellent, full compliance with CMB's Corporate Governance Principles, while grade "0" means that there is no compliance with CMB's Corporate Governance Principles, in any sense, in the existing weak structure.
